

# The Foundations of Better Lead Screening for Children in Medicaid

Data Systems and Collaboration

ALLIANCE TO END CHILDHOOD LEAD POISONING

APRIL 2001

## **Acknowledgments**

Development of this report was supported by The Commonwealth Fund, a New York City–based private independent foundation. The views presented here are those of the author and not necessarily those of The Commonwealth Fund, its directors, officers, or staff.

The primary author of this report is Nancy Tips, Project Manager, Alliance To End Childhood Lead Poisoning. The report is based on the contributions of staff of the state childhood lead poisoning prevention programs and state Medicaid agencies whose strategies are featured herein. These staff members invested their time in outlining, explaining, and clarifying their strategies.

Thanks to:

- Ed Norman, North Carolina Department of Environment and Natural Resources
- Richard Leiker, Oregon Health Division
- Magaly Angeloni, Rhode Island Department of Health
- Margie Joose Coons, Wisconsin Department of Health
- Rita Hallett, Division of Health Care Financing, Wisconsin Department of Health
- Marcia Mueller, Washington State Department of Health
- Eric Ossiander, Washington State Department of Health

The author also thanks the following people for their assistance in drafting, reviewing, and finalizing this report:

- Mary Jean Brown, Harvard School of Public Health
- Anne Guthrie, Alliance To End Childhood Lead Poisoning
- Don Ryan, Alliance To End Childhood Lead Poisoning
- Eileen Quinn, Alliance To End Childhood Lead Poisoning
- Joe Schirmer, Wisconsin Department of Health
- Tena Ward, North Carolina Department of Environment and Natural Resources
- Ann Egerton, Washington State Medical Assistance Administration
- Margaret Wilson, Washington State Medical Assistance Administration
- Peter Simon, Rhode Island Department of Health

Special thanks to Karen Scott Collins and Melinda Abrams of The Commonwealth Fund for their interest in and support of this report.

Thanks to Jan Reiss of A Way with Words, Wellesley, Massachusetts, for editing and cover and layout design.

# CONTENTS

**Introduction .....1**

**Background .....3**

**The Importance of a Clear Picture .....9**

How “putting lead poisoning on the map” brought improvements in lead screening among Oregon’s young Medicaid beneficiaries

**The Importance of Getting the Facts .....17**

How the portable blood lead analyzer brought screening to a group of high-risk children in Washington State and helped investigators learn more about their lead risk

**The Importance of Evaluation .....22**

How North Carolina used a collaborative evaluation project to help guide plans for improving Medicaid screening

**The Importance of Synergy .....28**

How Wisconsin’s lead program and state Medicaid agency joined forces to improve lead screening and follow-up care

**The Importance of Comparing Notes .....34**

How the Rhode Island lead program reaped the benefits of combining data from multiple sources
